PHEV

CHANGE IS IN THE AIR AND TODAY YOU'VE STARTED ON THE JOURNEY THAT WILL CHANGE YOUR LIFE.

THE COUNTRYSIDE HAS ALWAYS BEEN YOUR PLAYGROUND.

THE WEEKEND TO ADVENTURE, TO UNWIND, TO RENEW AND RECHARGE YOUR BATTERIES.

TODAY YOU'VE MADE THE CHANGE THAT'S BETTER FOR YOUR LIFESTYLE AND BETTER FOR THE ENVIRONMENT.

THE NEW ECLIPSE CROSS PHEV IS THE SUV THAT CAN CARRY YOU TO WORK EACH DAY ON CLEAN, RECHARGEABLE BATTERY POWER, YET EFFORTLESSLY REACH THE ADVENTURE OF THE COUNTRYSIDE WITH ITS EFFICIENT PETROL ENGINE.

YES, TODAY CHANGE IS IN THE AIR,

THANKS TO YOU.

ECLIPSE CROSS PHEV

» MODEL SHOWN ECLIPSE CROSS PHEV VRX *in White Diamond.*

» FULLY CHARGED

Chargeable at home or in the city, the new ***Eclipse Cross PHEV*** is designed to complement your busy lifestyle. Capable of both emissions-free city commuting and long-distance road trips it brings together the best of both worlds.

» CONNECTED

Eclipse Cross PHEV offers intuitive, intelligent features that provide connectivity, safety and efficiency beyond those you would expect in an SUV.

» LOOK CLOSELY

Following the design evolution of the front grille, lights and sculptured rear of the ***Eclipse Cross***, discreet PHEV badging and unique machine-finished 18-inch alloy wheels identify it as something special.

Power couple

A WELL-EARNED BREAK FOR LUNCH AND SOME RETAIL THERAPY, AND BOTH YOU AND ECLIPSE CROSS PHEV ARE TOPPED UP.

Energy HQ

» MODEL SHOWN **Eclipse Cross PHEV VRX** *in White Diamond.*

» SMARTPHONE APP
The App lets you pre-set overnight charge times to take advantage of off-peak rates. Accessing the in-car climate control from the App means you'll never have to step into a cold car again.

» CHARGING AT HOME
*Fully charge your **Eclipse Cross PHEV** overnight with an ordinary 3 pin plug.*

At the heart of the PHEV energy system is the dash-mounted 8-inch touchscreen, displaying the car's drive modes and energy flow.

You can use the energy flow information on screen to simply monitor the vehicle's efficiency and performance. You can keep the charge in the battery using the Battery Save Mode. You can use the petrol engine to fill the battery with Battery Charge Mode and to further increase the efficiency of the vehicle's operation, select Eco Mode.

Chargeable at home from a normal electric plug or from public EV fast-chargers in the city, the ***Eclipse Cross PHEV*** is capable of completing your daily commute of up to 55kms* without using any petrol at all. That's zero fuel and zero emissions. Should you need to go further, the 2.4L petrol engine seamlessly combines to give you a range of up to 650kms*. On the drive, the two energy systems work in tandem to deliver exceptional fuel economy of just 1.9L per 100kms*.

*Fuel economy and range figures are based on the ADR 81/02 test for combined urban/extra urban driving. Please note that actual on-road fuel consumption, emissions and range will vary depending on traffic and road conditions, vehicle load and the individuals' driving styles.

ECLIPSE CROSS PHEV

The Perfect Cross

A FUEL-FREE WEEKLY COMMUTE PLUS THE RANGE TO TAKE YOU OUT BEYOND THE CITY LIMITS.

» MODEL SHOWN **Eclipse Cross PHEV VRX** *in White Diamond.*

Light up the night

AN SUV THAT MATCHES YOUR ACTIVE LIFESTYLE.

» MODEL SHOWN Eclipse Cross PHEV VRX *in White Diamond.*

While the new ***Eclipse Cross PHEV*** is an SUV designed to take you out to the countryside, it's right at home in the city too. Its sharp distinctive contours and bold lines dramatically define its body shape, while inside you'll appreciate the luxurious leather-appointed cabin* (VRX only) designed to provide a premium driver experience. Reversing Camera, Forward Collision Mitigation, 7 Airbags and Pedestrian Approach Warning are just a few of a vast suite of intelligent driver aids that combine to give you confidence and keep everyone safer.

Above you, the integrated dual sunroof (VRX only) floods the cabin with ambient light, while smartphone connectivity brings all your music, navigation and communication onto the 8-inch touchscreen. Bluetooth™ hands-free with voice activation can be operated without distraction with the controls on the steering wheel.

*Finishes specified as leather-appointed contain a combination of genuine leather and man-made materials.

» HEATED LUXURY SEATS
VRX offers leather-appointed heated seats throughout.

» 18-INCH ALLOY WHEELS
Machine-finished 18-inch alloy wheels come as standard.

The weekend starts here

THE NEW ECLIPSE CROSS PHEV HAS ALREADY RECHARGED ITS BATTERIES ON THE WAY HERE, NOW IT'S YOUR TURN.

» MODEL SHOWN **Eclipse Cross PHEV VRX** *in White Diamond.*

Technically speaking

EFFICIENTLY DELIVERING YOU AND YOUR GEAR TO THE START OF YOUR NEXT ADVENTURE IS WHAT NEW **ECLIPSE CROSS PHEV** WAS MADE FOR.

Onboard, a full suite of intuitive driving technologies have got your back.
On the open road or in heavy traffic, Adaptive Cruise Control (VRX only) will match your speed to that of the vehicle in front of you for smooth driving. Forward Collision Mitigation stays constantly focused on the road ahead and reacts to oncoming hazards, bringing you to a complete stop if necessary.

» MODEL SHOWN Eclipse Cross PHEV VRX *in White Diamond.*

The Super All-Wheel Control system provides superior levels of grip by balancing torque and brakeforce between all four wheels while ABS brakes arrest even the slightest loss of adhesion under heavy braking.

Meanwhile, the intuitive energy system of the Eclipse Cross PHEV allows you to drive just as you would a normal car or get intimately involved in monitoring the drive modes that show how the battery, electric motors and petrol engine are working together. You can select Eco Mode to increase the vehicles efficiency or switch to EV Priority Mode to deliver zero emissions instantly.

Command and comfort

Settle into the cabin and you'll instantly feel generously supported by the heated leather-appointed seats (VRX only). Looking around, you'll be taken with how a car as technically advanced as this can feel so welcoming and normal.

Everything you need to take you on your adventures is right there at your fingertips and so logically and beautifully laid out. Push the start button and in that instant you become the centre of attention. All you'll hear is the surprising silence of the twin electric motors, be assured a galaxy of technology has just silently linked together to take care of your every command.

Deep within the rigid high-tensile shell, 7 airbags report for duty as camera and laser systems pair to monitor your surroundings and the road ahead.

» MODEL SHOWN Eclipse Cross PHEV VRX.

Venture forth, safety first

» MODEL SHOWN **Eclipse Cross PHEV VRX** *in White Diamond.*

» MODEL SHOWN **Eclipse Cross PHEV VRX** *in White Diamond.*

Eclipse Cross PHEV is as uncompromising on efficiency as it is on safety. The minute you open the door, it sets in motion a protection system that not only looks after you and your passengers, but also those outside the car too.

Multiple exterior cameras not only offer you a view of what's happening directly behind, but all around you, which is displayed on the Multi-Around View Monitor (VRX only) at the centre of the dash.

Because the EV Priority mode is so quiet, all models use a Pedestrian Approach Warning System to alert pedestrians of your presence in busy areas.

While driving, the Heads Up Display system (VRX only) projects critical driver information onto a screen directly in your line of sight, allowing you to keep your eyes on the road ahead.

» SAFETY FROM EVERY ANGLE
The Multi-Around View Monitor gives you a bird's-eye view for safety in tight spaces (VRX only).

Get out there

THE NEW ECLIPSE CROSS PHEV IS THE SUV THAT OFFERS THE BEST OF BOTH WORLDS.

» MODEL SHOWN **Eclipse Cross PHEV VRX** *in White Diamond.*

The Eclipse Cross PHEV can charge at home overnight with a normal 3-pin plug. It can take you on your daily commute without using a drop of fuel with its twin electric motors, and yet still take you and your gear out to the edge of adventure, harnessing its powerful 2.4L petrol engine.

With a push of a button, you can activate the enhanced road-holding capabilities with four AWD driving modes which balances the torque and brakeforce for better stability and control.

Despite its extraordinary technological talents, there's purposefully nothing sci-fi or complicated about it.

Eclipse Cross PHEV is designed to deliver a normal, everyday driving experience to the owner.

It's not the future, its today.
So get out there.

» (LEFT) ON-DEMAND AWD
With AWD driving modes (Tarmac / Gravel / Snow / Normal) you'll keep traction, whatever the conditions.

» (BELOW LEFT) ONE-TOUCH START
No keys required. Just one press starts and stops the vehicle.

» (BELOW) BETTER VISIBILITY
Daytime Running LEDs look smart and help other drivers see you.

Features at a glance

ECLIPSE CROSS PHEV BRINGS YOU SMART FEATURES TO KEEP YOU IN CONTROL, RELAXED AND COMFORTABLE.

» (ABOVE) FULL APP CONTROL
Choose when you charge and set the climate control remotely from your phone.

» (ABOVE RIGHT) HEAD-UP DISPLAY
Critical driver information is projected onto a screen directly in your line of sight, allowing you to keep your eyes on the road. (VRX only).

» (RIGHT) DUAL SUNROOF
***Eclipse Cross PHEV VRX** comes with an integrated Dual Sunroof so natural light floods the cabin.*
