» MODEL SHOWN **Mirage XLS** in Cool Silver.

» A SENSE OF STYLE

It's true; your car is an expression of yourself. **Mirage** makes a very good impression with sharp, modern styling inside and out.

» ALL THE SAFETY MUST-HAVES

Your **Mirage** is one of the safest cars in its class. Airbags, a rigid shell and intelligent systems that control the vehicle all add up to a 5 star ANCAP rating, and real peace of mind.

» BUILT FOR BUSY DAYS

Within the compact body is a surprisingly big list of features that let you do more of what you love. Take a mountain of shopping home, take your friends to a show, you can do anything.

» A GREAT DRIVE

From the narrowest city lane to the wide open road, **Mirage** is a pleasure to drive. It only feels like a small car when you're parking.

What to wear

MIRAGE IS DESIGNED TO LOOK RIGHT AT HOME OUTSIDE A FUNKY CAFÉ OR THE FINEST RESTAURANT. WHEREVER YOU GO, YOU'LL BE IN STYLE.

First impressions count. That's why *Mirage* has been designed to create a presence bigger than its actual size. At first glance you notice the large, angular headlights; the chrome edged grille and the confident, curved bumper beneath. The machine-finished alloy wheels and crisp, tailored creases ease the eye back to the spoiler. The colour range includes a number of bright exuberant hues. Compact it may be, but shy it is not.

Inside, the seats and door panels use complementary tones to make the cabin vibrant. The contours of the dash are smooth and solid.

Sharp styling is just one of the ways *Mirage* gives you experience above and beyond what its modest price would suggest.

Designed for life

IN ONE DAY YOUR **MIRAGE** CAN BE A TAXI, A CARGO CARRIER, A SUPERB LITTLE RUN-AROUND, EVEN AN OASIS OF CALM IN A BUSY CITY.

» PLENTY OF BOOT SPACE

Lift the hatch for plenty of cargo space. Fold down the rear seats for even more.

Mirage is made to let you do more – a lot more. You've got the room for your four passengers, with all kinds of storage spaces tucked away in the doors, dash and elsewhere.

You've got plenty of boot space: 235 litres (VDA). Need more? Just fold the back seats down for 599 litres (VDA) of luggage room. The seats even split 60/40 to help you juggle passengers and cargo. Getting into **Mirage** when your hands are full of shopping is easy too, thanks to keyless entry.

Getting around is a breeze, with one of the tightest turning circles; just 9.2 metres.

When comfort is called for, **Mirage** is well-equipped. The seats are supportive and air conditioning tames a fiercely hot day. The steering wheel houses the audio and Bluetooth™ controls and adjusts to let you find the most comfortable position. Four-speaker audio system incorporates AM/FM radio, CD and has a USB port as well as Bluetooth™ to play music from your phone or iPod.

Smart about safety

A BUSY LIFE DEMANDS A CAR
THAT KEEPS YOU SAFE WHEREVER
YOU GO. SAFETY IS AT THE VERY
CENTRE OF MIRAGE'S DESIGN.

A better kind of drive

MIRAGE DELIVERS A DRIVING EXPERIENCE YOU WOULDN'T EXPECT FROM A COMPACT CAR. IN THE CITY OR THE COUNTRY, IT'S SPIRITED, COMFORTABLE AND SURE-FOOTED.

Around town, **Mirage** gets up to speed surprisingly quickly. On the open road, it glides along without working hard. The smooth acceleration comes from the CVT transmission, which constantly keeps you in the right gear to deliver the power you need and good efficiency. For added braking and control down a hill, put the gear lever into the B setting.

which holds the brake for 2 seconds while you move your foot to the accelerator.

The 1.2 Litre 3-cylinder engine provides ample power and returns economy of just 5.0 Litres per 100km.

With nimble handling and that tight turning circle, your **Mirage** drives very smartly indeed.

Speaking of hills, you'll never roll back at the lights again thanks to HSA (Hill Start Assist),

One of the beauties of a compact car is that it's nimble; you can avoid danger quickly. **Mirage** has excellent forward visibility and sharp steering for when you really need it. This is backed up by ASC and ATC (Active Stability Control and Active Traction Control), essential features for keeping the safest course.

ABS brakes are standard and incorporate EBD (Electronic Brakeforce Distribution), which sends more brakeforce to the rear wheels if the car needs it. In an emergency situation, the SmartBrake only applies the brakes if you accidentally hit both pedals at the same time.

The body is a rigid shell that absorbs energy and contributes to the agile handling. In the cabin there are driver and passenger airbags in

the front, as well as side and curtain airbags on both sides. The front seat belts are linked to the airbags and gather tension to reduce your movement. ISOFIX attachments in the back keep children safe in their car seats.

While it's a bold statement, **Mirage** is also a very safe choice.

» RIGID SAFETY CELL
Mirage's stiff inner structure directs energy away from the occupants.

» (RIGHT) FINGERTIP CONTROL
Keeps your hands on the wheel while you make calls with Bluetooth™.

» (BELOW) EASY TO GET INTO
