#### OUTLANDER

#### » MODEL SHOWN Outlander XLS in Rose Red.

#### » REASSURINGLY SAFE

Wherever you ferry the family, they'll be surrounded by a completely integrated system of active and passive safety measures. 5-star safety standards are exceeded by every model in the range.

#### » EFFICIENT ON EVERY LEVEL

Efficiency is the guiding principle at the core of Outlander's design and engineering, in the way it saves fuel, reduces emissions and slips through the air.

#### » EVERYONE'S LOOKED AFTER

Between school sports, weekend trips and endless rounds of grocery shopping, a family vehicle plays a big role in everyday life. That's why Outlander is effortlessly accommodating and caters to the needs and comfort of every passenger.

#### » EVERYTHING'S INCLUDED

Outlander carries the technology to make every aspect of driving enjoyable. The ride is firm and secure. The connectivity is effortless. The overall experience is a welcome pleasure.

# Family wants, family gets

OUTLANDER GIVES YOUR KIDS THE SPACE
AND VERSATILITY THEY NEED AND REWARDS
YOU WITH SUBLIME COMFORT AND ELEGANT
STYLE FOR THOSE RARE MOMENTS ALONE.

These days the ability to carry 7 people is a must-have. That's why every model of **Outlander** features 3 rows of seats. The likelihood of a long drive makes comfort essential as well. But the feeling of refinement is down to more than a well sprung seat. You're surrounded by premium materials and sculpted surfaces, inside and out.

Passengers are well and truly catered for; so are the many other things you'll need to carry. Both the back rows of seats fold flat for extra storage; 1.685 metres at full stretch. Access to the boot area is a breeze on **VRX**, thanks to the power-assisted tailgate.

And when the kids are in bed and the night is finally yours, you can glide into the city in style and enjoy the soft wash of quietness, thanks to **Outlander's** superior soundproofing.

## Safety for all

FROM ITS RIGID OUTER SHELL TO THE MANY AIRBAGS WITHIN, OUTLANDER IS ENGINEERED FOR ABSOLUTE SAFETY AND PEACE OF MIND.

SOUTH AND THE SO

The vehicle you entrust with your family's protection must take the matter very seriously. The sense of reassurance you get from **Outlander** is due to the way safety is woven throughout the vehicle's design.

You're enclosed inside a high-tensile lattice that directs energy away from passengers. But this isn't the first line of defence. *Outlander* employs multiple systems to avoid danger, with traction and stability constantly monitored and carefully controlled. Brake force is applied in the most effective way, whatever the vehicle's attitude or the surface conditions. The stiff body and the many airbags within it come to your aid when necessary.

The **VRX** and **XLS** models include advanced safety systems, such as Adaptive Cruise Control and Forward Collision Mitigation, that react to the unexpected behaviour of other drivers. Every single model offers a 5-star safety rating, and the sense of comfort it bestows.

Every **Outlander** now features the Smartphone Link Display Audio system. Simply plug in your iPhone or Android to play music, send messages, make phone calls and use maps – all from your phone. The system is voice activated and your apps are displayed on the large touch screen in the centre of the dash. The driver has control of **Outlander's** audio system, Bluetooth™ and cruise control from the leather steering wheel. A good impression is created by the

string of daytime running LEDs beneath the front lamps. All models feature dual-zone climate control for a comfortable trip. You can marvel at the clarity of the high-power 6-speaker sound system. Its volume is equally impressive, much to your kids' delight.

- [LEFT] TOTAL CONTROL Fingertip control of hands-free phone and audio system.
- » [BELOW] INSTANT 4WD Serious 4WD traction engages at the push of a button (4WD models only).

## Features for everyone
